Executive Summary

Menjelaskan posisi strategis TapGo sebagai platform ekosistem digital berbasis membership.

- TapGo menghubungkan anggota, merchant, komunitas, dan layanan digital melalui satu identitas membership.
- Membership adalah pintu masuk ekosistem, bukan satu-satunya sumber pendapatan.
- Aktual per Juli 2026: produk berada pada tahap pre-production, readiness Google Play, dan payment gateway production preparation.
- Target 2026: launch Android, stabilisasi pembayaran DOKU, founder program, membership, wallet, referral, dan admin console.
- Strategi 2026-2035 disusun bertahap: Banten launch, Jabodetabek expansion, national ecosystem, AI, analytics, dan enterprise API.

Executive Dashboard

Metric	Status
Current Stage	Pre-Production / Internal UAT
Product Readiness	Android, backend, admin, payment integration preparation
Funding Requirement	Illustrative seed range Rp2-5 miliar, owner confirmation required
Break-Even Target	Base scenario: estimated 2029, assumption-driven
Key Risk	Payment activation, bonus liability, compliance, user acquisition

Dimension	Conservative	Base / Moderate	Growth / Aggressive
User growth	Controlled	Measured Banten to Jabodetabek	Faster regional scale
Cost discipline	Strict	Balanced	Growth investment
Risk posture	Low appetite	Managed risk	Higher execution load

Market Opportunity

Membangun model pasar bertanggung jawab tanpa mengarang data aktual.

- Market opportunity disusun sebagai Illustrative Market Model karena data pasar final masih perlu verifikasi owner dan sumber eksternal.
- Area analisis: digital economy Indonesia, mobile usage, UMKM, digital payment adoption, PPOB, community commerce, dan membership economy.
- Target market awal: Banten sebagai launching market, dilanjutkan Jabodetabek, lalu ekspansi regional nasional setelah validasi.
- TAM/SAM/SOM pada workbook adalah asumsi editable, bukan data aktual.

Go-To-Market & Marketing

Mendefinisikan funnel, channel, KPI, dan akuisisi member/merchant.

- Member acquisition: founder network, referral, community, social media, TikTok, Instagram, WhatsApp, SEO, partnership, dan merchant-led acquisition.
- Merchant acquisition: direct sales, community, regional coordinators, partnerships, onboarding program, incentive, dan training.
- Marketing funnel: Awareness, Interest, Registration, Verification, Membership, First Transaction, Repeat Transaction, Referral, Retention.
- KPI: CAC, conversion, activation, retention, churn, referral rate, repeat transaction, active member ratio, dan merchant activation.

Modal Investasi

Menghitung baseline initial investment dan klasifikasi biaya.

- Baseline moderat: product development Rp350 juta, infrastructure setup Rp75 juta, device/equipment Rp75 juta, branding Rp30 juta, legal/compliance/HKI Rp40 juta, initial marketing Rp100 juta, office/setup Rp50 juta, contingency Rp80 juta.
- Total baseline: Rp800 juta.
- Nilai aktual sunk cost, capitalizable assets, dan kebutuhan dana baru perlu konfirmasi owner.

Modal Kerja

Menghitung kebutuhan working capital 6, 12, dan 18 bulan.

- Baseline monthly operating budget moderat: Rp159,5 juta per bulan.
- Runway 6 bulan: Rp957 juta.
- Runway 12 bulan: Rp1,914 miliar.
- Runway 18 bulan: Rp2,871 miliar.
- Minimum cash reserve dan emergency reserve dihitung di workbook.

Five-Year Financial Projection

Membangun proyeksi 2026-2030 untuk tiga skenario.

- Model mencakup users, active users, paid members, package mix, merchant, transaction count, GMV, revenue, cost of revenue, gross profit, opex, EBITDA, EBIT, tax, net profit, working capital, capex, dan free cash flow.
- Skenario: Conservative, Base/Moderate, Growth/Aggressive.
- Semua formula terhubung ke assumption sheet.

Dimension	Conservative	Base / Moderate	Growth / Aggressive
User growth	Controlled	Measured Banten to Jabodetabek	Faster regional scale
Cost discipline	Strict	Balanced	Growth investment
Risk posture	Low appetite	Managed risk	Higher execution load

Break-Even Analysis

Menghitung break-even paid members, revenue, transaction volume, merchant count, dan month.

- Analisis sensitivity mencakup package mix, bonus payout, CAC, dan fixed cost.
- Break-even adalah model ilustratif, bukan janji kinerja.

Dimension	Conservative	Base / Moderate	Growth / Aggressive
User growth	Controlled	Measured Banten to Jabodetabek	Faster regional scale
Cost discipline	Strict	Balanced	Growth investment
Risk posture	Low appetite	Managed risk	Higher execution load

Funding Strategy

Menyusun milestone pendanaan tanpa menyatakan dana sudah diperoleh.

- Bootstrapping / Founder Capital.
- Seed illustrative range: Rp2-5 miliar.
- Pre-Series A hanya setelah repeatable acquisition dan unit economics mulai tervalidasi.
- Series A hanya setelah product-market fit dan kontribusi margin positif.

KPI Dashboard

Menentukan KPI member, merchant, payment, finance, marketing, dan operations.

- Member: registered, active, paid, churn, retention.
- Merchant: registered, active, GMV, revenue.
- Payment: success rate, webhook success, refund, chargeback.
- Finance: revenue, gross margin, EBITDA, burn, runway, cash.
- Operations: ticket SLA, NPS, uptime, fraud rate.

Corporate Roadmap

Menampilkan roadmap visual 2026-2035 dengan milestone, KPI, budget, dependency, dan exit criteria.
